Subject: MICROSOFT SETTLEMENT

DEPARTMENT OF JUSTICE,

I urge you to proceed and complete the Microsoft settlement during the first quarter of 2002. This long standing settlement need to be resolved NOW.

I also urge you to accept Microsoft's offer to supply computer equipment to our school system and NOT cash. The use of additional cash in our schools will not improve the level of education of our children -- computers will. I am suspicious of the motives of our administrators that the cash may be used for their own pet projects and wage increases. I don't trust the integrity of our school administrators. Throwing \$\$\$ at the education system will not improved the education level of our children, it hasn't in the past i.e., lottery etc.

Regards,

Roy Tweedie
